

**Record of Annual Meeting
With
Local Emergency Responders**

**Basin Electric Power Cooperative
Laramie River Station
Platte County Wyoming**

Date: Attempt made in 2025 to Meet

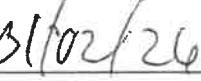

Location: TBD

40 C.F.R. §257.73(a)(3)(i)(E) requires provisions be made for an annual face-to-face meeting between Basin Electric Power Cooperative Laramie River Station representatives and Platte County emergency responders (local emergency responders). In October, outreach was made to the Emergency Manager about the Emergency Action Plan (EAP) and to review site activities for CCR units at Laramie River Station was made. The site EAP is available publicly online.

Previous meetings were held with the group including the Emergency Management Coordinator were conducted virtually and in person. The last quarterly meeting of the group was not held in 2025; the former Coordinator is now in the role of Sheriff (Anthony Krotz). They have not invited us to a meeting as of 12/31/2025.

This notice serves to document the attempt made by Basin Electric Power Cooperative to fulfill the obligation to have a meeting with the local emergency responders as required by 40 C.F.R. §257.105(f)(7). A follow-up face-to-face meeting will be held as soon as reasonably practicable in 2026 when the Platte County Emergency Manager sets a meeting.

LRS EAP Coordinator
